Press Note.

Extension of Electricity to Rural Areas.

Several representations are being constantly received from the people residing in the rural areas, pressing Government for the extension of electricity to their places both for lighting and irrigation purposes. Most of the representations relate to the supply of power to irrigation pumping sets to grow more food. Government are indeed fully aware of the need for the extension of electricity to almost all the rural parts with a view to make this amenity available to all people. A gross return of two per cent on the capital outlay was considered as an acceptable return on the capital investment in the case of rural electrification schemes. In the case of power supply to irrigation pumping sets, no line minimum is insisted upon; and this is with a view to encourage the ryots to grow more food with the help of irrigation pumping sets. Accordingly, rural electrification schemes yielding this return of two per cent and above were being considered till now.

But, it is found quite essential that the return on the capital outlay should, at least, cover interest on capital, depreciation and maintenance charges, if any scheme is to be considered as practicable. The Electrical Department will have to incur loss in taking up unremunerative schemes, by meeting the maintenance charges, etc., and the returns are also not very promising. In addition to this, several irrigation pumping sets are installed in out of the way places, with the result that thefts of copper wire are occurring very frequently and the Electrical Department is losing heavily on account of this also. Therefore extension of electricity to rural areas without consideration of the return will tell upon the working of the Electrical Department.

It is, therefore, hereby notified for the information of the public that, in future, all such schemes both for rural electrification and for power supply to irrigation pumping sets, which do not yield the required return on the capital outlay will have to be deferred or kept back.

Press Note.

Restriction on the release of Iron and Steel for building purposes within the State.

The quantity of steel allotted to the State under non-agricultural quota is found too inadequate to meet the demand from the general public. With a view to make as equitable a distribution as possible within the limited allotments of steel, it was found desirable to restrict the extent of releases for construction of buildings. Accordingly the Government of Mysore have promulgated the Mysore Iron and Steel (Control of use in Buildings) Orders, 1952, which has been published in the *Mysore Gazette* dated 14th August 1952.

It is found in several cases that the quantity applied for construction of residential quarters is so heavy that it cannot be released without prejudice to the needs of small-scale consumers. It is, therefore, decided to suspend the release of steel for the construction of "Luxurious Buildings", *viz.*, Cinemas, Dance Halls, Theatres, Studios or other places of amusement, as difined in sub-clause (6) of Clause 3 of the Order cited above. The restriction on the release of steel is, however, relaxed in the case of construction of buildings of public utility, such as for educational, medical, religious or charitable purposes and also buildings of Government and local bodies, etc., referred to in Clause 6 of the said Order in which case the applicants are requested to furnish details justifying the needs.

The public are earnestly requested to co-operate in fulfilling the desired object of the Government.

(P.N. No. 111—5-9-1952).

Press Note.

As a measure of relief to the ryots whose dry lands in Tumkur Taluk have suffered on account of scanty rainfall during the year 1951-52, remission of one-half and suspension of the other half of the dry assessment are sanctioned in respect of 50 villages in Tumkur Taluk for the year 1951-52.

The aggregate sum thus to be remitted is 6,641-6-3.

(P.N. No. 112—5-9-1952).

Press Note.

(P. N. No. 113—6-9-1952).

Press Note.

As a measure of relief to the atchkatdars who have suffered on account of failure of wet crops under atchkats of the 123 tanks in Bhadravati Taluk, due to scanty rains during the year 1949-50, seasonal remission of half wet assessment to the extent of Rs. 4,127-4-9 (Rupees four thousand one hundred and twenty-seven, annas four and pies nine) only, is sanctioned for the year 1949-50.

(P.N. No. 114—6-9-1952).

Press Note.

Subject.—Issue of Rations to Visitors to Mysore City during the Dasara Festivities in 1952.

In view of the acute food situation and the prevalence of distress conditions in more than three Districts of the State, owing to continued failure of rains, and the difficulties experienced in meeting even the normal food requirements, it would not be possible for Government to issue any rations to the visitors to Mysore during the Dasara Festivities this year.

Intending visitors to Mysore during the ensuing Dasara Festivities are therefore cautioned that no rations will be issued to them from Government Depots and that they should provide themselves with their own rations, to avoid any possible inconvenience to themselves. There will, however, be no restrictions imposed on their bringing food-grains into Mysore City, as it is now a derationed area.

Local Indent No. 11436.

Subject :—Resoling of Old Tyres.

Sir,

No. S.P.C. 22913-23012. Referring to the issue of a rate contract under Local Indent No. 11436, for resoling old tyres applicable to all Government Departments, I write to state as follows :—

It has been brought to the notice of this office that some of the departments possessing M. T. Vehicles auction or sell the old tyres to the public.

A rate contract is let out for getting the old tyres resoled as it is economical to use the old tyres after getting them resoled, instead of purchasing new tyres. Old tyres which are in your possession may be got resoled, before effecting the purchase of new tyres or auctioning them, unless they are found completely unserviceable.

Yours faithfully,

Press Note.

Tax on silk goods woven on handlooms with mill yarn.

There seems to be an impression that the silk goods woven on handlooms come under goods woven on handlooms, wholly or partly, with mill yarn and that the concession may be allowed under Section 5 (iii) of the Mysore Sales-Tax Act, subject to the conditions as to the license and license fees. This impression is not correct. The concession allowed in that Section applies only to the cloth woven on handlooms, wholly or partly, with *Mill-yarn*. Thrown silk and generally lace used in the manufacture of silk cloth cannot be treated as mill-yarn. Silk goods woven on handlooms, except those with hand-spun silk yarn, are taxable at each stage of sale at 3 pies in the rupee.

Press Note.

Health of Livestock in Mysore State during August 1952.

In their order of severity, outbreaks of Blackquarter, Haemorrahagic-septicaemia, Anthrax, Ranikhet, Contagious-goat Pleuro-pneumonia, Sheep-pox, Gastro-entritis and Foot and Mouth were encountered. Altogether 141 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 191 villages during the previous month. The number of outbreaks was highest in Shimoga, Bangalore and Hassan Districts, while Chikmagalur, Tumkur and Mandya Districts were least affected. These diseases accounted for 474 attacks, of which 417 succumbed. The departmental staff conducted 23,378 preventive inoculations and vaccinations against all the above diseases, except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention, other prophylactic measures were adopted against Foot and Mouth disease.

During the month, the State was free from Rinderpest. As a prophylactic measure, the staff of the department have protected 935 cattle in four villages of Devanahalli Taluk.

Diseases caused by internal parasites were reported from 123 villages accounting for 34 deaths, as against 124 villages accounting for 24 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 9,008 animals.

Due to failure of rains, scarcity of fodder was keenly felt in Kolar, Tumkur, Chitaldrug, parts of Hassan, Chikmagalur and Shimoga Districts. One thousand one hundred and forty-two cattle are reported to have died from starvation. Fodder depots have been opened in all the affected areas and adequate quantities of paddy straw are reported to have been made available in these depots from Mandya District. Government have also thrown open all the Forests and about 27,000 acres of Amritmahal Kaval lands in different parts of the State. The villagers in the distress areas are being advised to move their non-essential cattle into the jungle areas and Amrithmahal Kavals.

All matters received later than these days will be kept by for insertion in the following issue of the Gazette. (G. O. No. P. 988-1040—P. & S. 12-30-2, dated 26th July 1930.)

2. (i) Spare copies of notifications, etc., are often asked for long after their publication, when the matter has been broken up, necessitating its re-setting and thereby causing inconvenience to the Press and waste of money. When spare copies are wanted, a note to that effect stating the number of copies should be made at foot of such manuscript.

(ii) Indents for less than 100 spare copies should not be sent to the Press, subject to the exceptions contained in G. O. No. G. 14330-95—P. & S. 5-19-9, dated 23rd December 1919 in regard to notices calling for tenders for the purchase of stores or for the execution of works. When a few copies only are required, they may be made available by the use of carbon sheets simultaneously with the preparation of a copy for the Gazette, as laid down in the above Government Order. (Letter No. G. 10382—P. & S. 9-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.)

(iii) When indents for an unusually large number of spare copies are sent, such instances will be brought to the notice of Government, as per letter No. G. 10382—P. & S. 99-37-2, dated 30th June 1938, received from the Secretary to Government, Development Department.

3. Matter sent for insertion in the Gazette will be published *only once* and the abstract in two issues. (G. O. No. G. 2915-6—P. &. S. 44-25-2, dated 13th September 1926).

4. Applications for the supply of the Gazette on *Public Service* should be made to the Chief Secretary to the Government of Mysore.

5. As per G. O. No. E. 1892-1902—P. & S. 12-23-13, dated 8th December 1923, and G. O. No. 5139-95—P. & S. 52-30-1, dated 12th November 1930, the English or the Kanarese portion of the *Mysore Gazette*, consisting only of the five Parts, *viz.*, I, II, III Section 1, III Section 3, IV and V taken together or an entire copy of the English or Kanarese Gazette containing all the parts will be supplied only to Patels, Nad-Patels, Shanbhogs and Sheikdars within the State at *half* rates on production of a certificate from the Amildar of the taluk to the effect that such applicant is *bona fide* on duty at the time or that he is on leave for a period not exceeding three years. Such subscribers will please note that the Gazette cannot be had *in separate parts* at concession rates under any other conditions and that they have to pay the full subscription for the part or parts required.

6. As Government Treasuries in Mysore are authorized to receive and credit Gazette subscriptions as well as publication charges remitted by Courts or private parties, all such money should be sent to Treasuries and only Treasury receipts forwarded to this office. No money orders or cash will be received by the undersigned except from parties outside the State.

7. Much inconvenience is caused to this office by subscribers omitting to give their full and correct addresses and writing illegibly on the money order coupons. They are requested to insert invariably the name of the Post Office to which their copy should be sent.

8. Communications on post cards or on paper less than quarter sheet of foolscap will not receive attention; and no communication should be sent on Government Service by private parties.

9. An efficient system of check and counter-check is maintained over the despatch of Gazette copies forwarded through post. Duplicates cannot be supplied in any case of non-delivery.

OFFICE OF THE PRINCIPAL INFORMATION OFFICER TO THE GOVERNMENT OF MYSORE, OLD PUBLIC OFFICES, BANGALORE.

Press Note.

On the 5th September 1952, Government passed orders that they would be taking over the monopoly of running buses on six specified routes, and prohibiting private bus-owners from plying their buses on the abovementioned routes with effect from the 1st October 1952.

Several leading bus owners have since approached the Government with a request to postpone giving effect to the said Government Order till the 1st January 1953, mainly on the ground that about 300 private buses would be

A45

displaced and about 7,000 persons would be thrown out of employment. They plead that the time at their disposal since passing of the Government Order was too short for them to find alternative modes of livelihood for themselves or their staff, who have been in this line for the last several years. They, however, assure Government that they will earnestly co-operate in making the monopoly a success and that they will unconditionally surrender their permits on the monopoly routes on the 31st December 1952. Till that date they request the postponement of giving effect to the Government Order.

Government do not accept that there has been any short notice in this connection, as the scheme of nationalisation has been under contemplation for the last four years, and what is now announced is only the first effective step in that direction. Anyhow, in deference to the wishes of the bus-owners and mostly in consideration of the plight of their staff, who would otherwise be thrown out of employment, Government have, as an act of generosity, decided that the Governmont Order of the 5th September 1952, be given effect to from the 1st January 1953, on the distinct understanding that thereafter no such representations will be heeded.

Death of a Stranger in Chicknaikanahalli.

A news item had appeared in a local daily, in its issue dated 1st September 1952, regarding the death of a stranger in Chicknaikanahalli in which the cause of his death was presumed to be starvation. But the presumption regarding the cause of his death is not correct.

The deceased, one Subbanna (said to be a native of Hiriyur, Chitaldrug District), came to Chicknaikanahalli with his family, when he was suffering from dysentery. It is understood that he was suffering from Tuberculosis also, and that his death was due to the acuteness of the disease.

It will thus be seen that the death of the person was due to natural causes, and not due to starvation.

Press Note.

Postings and Transfers of Officers.

Comments have appeared in certain newspapers purporting to criticise the policy of Government in effecting postings and transfers of officers, notably in transferring the Commissioner, City of Bangalore Corporation, from his charge within a short interval. Government do agree that continuity is essential in the incumbency of posts like those of the Commissioner, City of Bangalore Corporation, and it is also their policy that officers posted to such charges hold them for a reasonable term so as to carry out or complete important schemes initiated during their term of office. At the present time, however, owing to the extension of the I.A.S. Scheme to the Mysore State and the necessity, under the Scheme, to fulfil certain requirements, the transfer of the present Commissioner, City of Bangalore Corporation, to a District charge was inevitable as only officers who are appointed to the I.A.S. or who have a right to hold senior duty appointments in the I.A.S. cadre have to be posted as Secretaries to Government or Deputy Commissioners in charge of Districts. Government are not unaware of the difficulties and inconveniences arising from frequent change of officers, but in the present case, the exigencies of service demanded a change, and after careful consideration, had inevitably to be ordered.

HEALTH OF LIVESTOCK IN MYSORE STATE DURING SEPTEMBER 1952.

In their order of severity, outbreaks of Rinderpest Hæmorrahagic-septicæmgia, Blackquarter, Anthrax, Gastroentritis, Sheep-pox, Foot and Mouth, Ranikhet Rabies and Contagious-goat pleuro-pneumonia were encountered in the State during September 1952. Altogether 167 villages were reported to have been affected by one or the other of the several contagious and infectious diseases as against 146 villages during the previous month. The number of outbreaks was highest in Shimoga, Hassan and Bangalore districts, while Mandya, Chikmagalur and Tumkur districts were least affected. These diseases accounted for 679 attacks, of which 572 succumbed. The departmental staff conducted 26,827 preventive inoculations and vaccinations against all the above diseases except Foot and Mouth disease. In the absence of a reliable method of vaccinatory intervention other prophylactic measures were adopted against Foot and Mouth disease. Three outbreaks of Rinderpest were registered in Bagepalli taluk accounting for 19 attacks among cattle, of which 6 succumbed. Prompt measures of control were undertaken by the department to check its spread and 341 cattle in the infected villages and 495 cattle in four neighbouring villages were protected against this disease. The disease appears to be well under control at the end of the month under report.

Diseases caused by internal parasites were reported from 118 villages, accounting for 41 deaths as against 123 villages accounting for 34 deaths during the previous month. The special staff attached to the parasitic disease control units of the department dosed 7,487 animals as against 9,008 animals during the previous month.

Due to failure of rains, scarcity of drinking water and fodder was continued to be felt in Kolar, Tumkur Chitaldrug and parts of Hassan, Chikmagalur, Shimoga and Bangalore districts, as a result of which 2,443 cattle are reported to have died from starvation. Fodder continued to be supplied to all the depots opened in the affected areas from Mandya district. The villagers in the distress areas have moved their non-essential cattle into the jungle areas and Amrith Mahal Kavals that are thrown open for free grazing and the staff of the department is keeping necessary vigilance on the large gatherings of cattle for controlling any outbreaks that may be evidenced among them with a view to preventing serious losses to livestock therefrom.

Progress Report of the Department of Archæology, Mysore, for the year 1951-52.

Inspection of Monuments and Study of Architecture and Sculpture and Ancient Sites.

The activities of the Department were mainly concentrated, as in the previous year, on the study of the conservation needs of the large number of protected ancient monuments of the State. As many as forty monuments were examined by the Director and the conservation staff of the Department during the year under report. In most cases, estimates of cost for urgent repairs or renovation forwarded by the Officers of the Public Works Department and the Muzrai authorities had to be scrutinised keeping in view the actual needs of the monuments from the point of view of archæological conservation. As far as possible, suggestions have been made for effecting repairs to the monuments in the order of urgency, the main consideration being the safety of the structure as well as the availability of funds. Among the monuments thus inspected, mention may be made of the Jyotirmahesvaraswami temple at Saligrama, Divyalingeswaraswami temple at Haradanahalli, Isvara temple at Arsikere and Mallikarjuna temple at Basral. A special estimate for urgent repairs to the Vidyasankara temple at Sringeri for Rs. 10,000 was also scrutinised.

Other monuments of great archæological importance and architectural beauty inspected during the year that deserve to be noticed are the Arkesvara temple at Hale Alur, Ramesvara temple at Narasamangala; Amaranarayana and Bhimesvara temples at Kaivara, Hariharesvaraswami temple at Harihar. Isvara temple at Anekonda, Lakshminarayana temple at Hosaholalu, Madhavarayaswami temple at Bellur and the Nageswara and Channakesava temples at Mosale. The Arkesvara temple at Hale Alur and Ramesvara temple at Narasamangala both of which are situated in the Chamarajanagar Taluk happen to be architecturally unique and hence attract special attention. But since the monuments have been neglected from a long time, it is necessary to attend to their repairs immediately. An exhaustive note has been prepared on the conservation needs of these works of art and forwarded to the Deputy Commissioner, Mysore District, for taking needful action.

The Kyathedevaru temple at Kyathedevarugudi, Chamarajanagar Taluk, Sri Sangamesvara temple at Sindaghatti and Madhava and other temples at Tirthahalli are some of the monuments studied during the year. The temples at Tirthahalli are all small structures built of granite and probably belong to the days of the Ikkeri chiefs. The Kalleswara temple at Aralaguppe is one of the early monuments of the State dating back to Circa 10th century A.D. The carved ceiling panels of this temple are of rare sculptural beauty. Close up views of the Nataraja panel in the middle of the ceiling of this temple were obtained. The peculiar pose and the disposal of the limbs of Nataraja have been clearly brought out in this photograph and this bas-relief happens to be one of the finest among the figure sculptures in the State. At Nekkundipet near Chintamani is an ancient site which goes back to the days of the Bana and the Nolamba Pallava period. A number of 'Viragals' or memorial stones to heroes and ancient inscriptions are lying there exposed to sun and rain in a neglected condition. The antiquities found on this ancient site are important in so far as they are among the few extent original evidence about the Bana dynasty which flourished in that part of the Kannada country. Again, near Anekal is another site belonging to about the 7th and 8th centuries A.D. Even on the surface of this site, red and black were potsherds and pieces of iron slag could be easily picked up in large numbers. A megalithic site was also noticed at Kongandhalli in the Chintamani Taluk.

Future control of Protected Monuments.

An important measure concerning the future control of the protected monuments of the State was the enactment by the Union Parliament of the Ancient and Historic Monuments and Archæological Sites and Remains Act 195[illegible]. There are at present over 250 protected ancient monuments and sites in the Mysore State. Of these, 108 important monuments and eight archæological sites have been declared by the Union Parliament to be of national importance and included in the Union List of Protected monuments, while the rest come under the State List. The expenditure required for the maintenance and arrangements for watch and ward of the monuments and archæological sites of national importance will be borne by the Central Government as from 1st April 1950. The Director visited Karkala and Venur in the South Kanara District along with the Chairman and other members of the Gomatesvara Research Committee in connection with the study of the State of weathering of the statues of Gomatesvara at those places.

Epigraphy.

Four sets of copper plate records were received by the Department for decipherment and study. One of them belongs to the Vijayanagar Rulers, two to the Keladi chiefs while the other record is a grant made by the Mysore Ru

Krishnaraja Wadiyar II to one Singyapperumal. New lithic records were also discovered during the year under review at Hale Alur, Horakeredevarapura, Hosaholalu, Tavarekere, Kikkiri and other places.

Exhibition and Museum.

An exhibition of the antiquities pertaining to the Chitaldrug District was organised at Rangayyana Bagilu, Chitaldrug, during the visit of His Highness the Maharaja of Mysore, to that place. His Highness who paid a gracious visit to the Exhibition evinced keen interest in the antiquities and other exhibits displayed. Orders have been placed with the Government Industrial School, Chitaldrug, for the preparation of show cases and frames required for the purpose of opening a museum of antiquities in Rangayyanabagilu at Chitaldrug.

Visitors.

During July 1951, the Director accompanied the Hon'ble Prime Minister of India and the Deputy Minister for Foreign Affairs to Belur, Halebid and Sravanabelagola and explained the archæological and artistic importance of the masterpieces of ancient art in those places. Sri H. L. Srivastava, Joint Director-General of Archæology in India, New Delhi, paid a visit to the State in December 1951. He was shown round the monuments at Srirangapatna, Sravanabelagola, Belur, Halebid and on the Chamundi Hills by the Director. Dr. B. Ch. Chhabra, Government Epigraphist for India, Ootacamund, visited the Department along with the Joint Director-General of Archæology. Early in the month of Januray 1952, Sri R. S. Panchamukhi, Director of Kannada Research, Dharwar, visited the Department and the Archæological Museum at Mysore and acquainted himself with the recent activities of the Department.

A select collection of photographs taken by the Department during the year was circulated among the different Departments of Archæology situated all over India and received appreciation.

Publications.

The Guide Books to the monuments, etc., at Belur, Halebid and Talkad which were got re-printed recently were made available for sale to the public. The Annual Report of the Department of Archæology, Mysore, for the year 1946 was also got printed at the Government Branch Press, and is now ready for distribution amongst scholars and research institutions. The printing of the Tamil texts of the Supplementary volumes to the Epigraphia Carnatica (Bangalore and Kolar Districts) made good progress. It is also proposed to publish the other volumes of the supplement to the Epigraphia Carnatica shortly.

Library.

About 50 new books and periodicals were acquired by epartment for purposes of reference and study.

Finance.

receipts and expenditure of the Department amount- Rs. 27,304-3-0 and Rs. 27,204-3-0 respectively during ar. A sum of Rs. 302-3-0 was realised by the sale Departmental publications and photographs.

Mysore in Relation to the All-India Five-Year Plan.

The Chief Minister had specially convened a meeting today at 3 P.M. in his Chambers at the Public Offices, to gather suggestions in regard to Mysore's part in the All-India Five-Year Plan. He had invited all the Ministers of the previous Cabinet, the Leader and Deputy Leader of the Opposition, and the Communist Member of the Legislature, the Secretaries to Government and the Heads of Development Departments. All the Ministers of Government, Sriyuts H. C. Dasappa, H. Siddiah, K. T. Bhashyam, T. Mariappa, R. Chennigaramiah, J. M. Imam, the Secretaries to Government and the concerned Department Heads were present.

There was a general consensus of opinion in regard to pressing on the Government of India the need to give an increased measure of assistance to Mysore State under the Five-Year Plan. Valuable suggestions were also offered in regard to the stress to be laid on the inclusion of more irrigation projects in the Five-Year Plan and the need for the Government of India to enhance their grants to Mysore in this direction, especially in view of the fact that, under the circumstances, it may not be possible for the State to bear the whole share allocated to it under the draft plan. The meeting also decided to put before the National Development Council the urgent necessity of giving priority to the Bhadra Reservoir Project and the Honnemaradu Power Supply Scheme and for the Government of India to finance these two schemes.

There was unanimous endorsement of the Chief Minister's emphasis on the need for impressing on the Government of India to give a larger share of assistance by way of grant or loan to Mysore, in view of the special conditions prevailing in the State.
